## European entrepreneurship culture, documenting regional and cross- border cultural heritage

The project idea is to document oral history of entrepreneur history by engaging local communities.

In the project people associated with the entrepreneur families and labourers from these family-run companies are brought together to share their memories.

Methods: meetings, reminiscing, documenting, sharing the results online, museum collections.

Meetings are documented by cultural heritage professionals.

### Keywords:

**entrepreneurs, oral history, cultural heritage, collective memory**
